DMAP Led Oracle Takeout Offers

	Standard	Standard+	Professional	Premium	Platinum
Customer Objective	Schema Conversion Complexity	Oracle Takeout Feasibility	Technical Feasibility	Business Case with ROI	Migration Blue Print
Customer Input	Schema Info	Schema, DB & App Info	Schema, DB & App Info DB Performance & Usage metrics	Schema, DB & App Info Existing Infra & Datacenter info	Schema, DB, App & I/F Info Existing Infra & Datacenter info DB Performance & Usage metrics

Deliverables	Discovery & Assessment reports for each Oracle schema
	Consolidated DB schema analysis, insights & conversion effort
		Discovery & Assessment reports for each Oracle schema
		Consolidated DB schema analysis, insights & conversion effort
		PostgreSQL DB Services on Azure or recommendation for technical feasibility assessment
		Assessment report for each application with migration effort & Azure recurring cost (ROM)
		Consolidated report for App & DB details
			Discovery & Assessment reports for each Oracle schema
			Consolidated DB schema analysis, insights & conversion effort
			PostgreSQL DB Services on Azure with sizing or alternate Azure service recommendation
			Assessment report for each application with migration effort & Azure recurring cost (ROM), DB Performance Analysis & Data Migration approach
			Consolidated report for App & DB details with DB Performance & Usage matrix
				Discovery & Assessment reports for each Oracle schema
				Consolidated DB schema analysis, insights & conversion effort
				PostgreSQL DB Services on Azure or recommendation for technical feasibility assessment
				Assessment report for each application with migration effort & Azure recurring cost (ROM)
				Consolidated report for App & DB details
				Oracle on-prem cost, one-time migration cost & ROI summary
				Business Case for Oracle takeout
					Discovery & Assessment reports for each Oracle schema
					Consolidated DB schema analysis, insights & conversion effort
					Assessment report & Migration blue print for each application
					  o Migration effort for application migration, embedded SQL, I/F & Reports remediation, schema conversion, data migration & migration certification (LOE)
					  o Azure Recurring Cost
					  o Data Migration & production cutover approach.
					  o PostgreSQL DB & Azure Services with target architecture and size recommendation
					  o App & DB details with DB Performance & Usage matrix
					  o Oracle On-Prem cost, one-time migration cost & ROI summary
					Business Case for Oracle takeout
